Fiber Optics

LIGHTSPEED SERVICE

Our turnaround for fiber optic calibrations is measured in a few days not weeks or months.

Essco is one of the few independent calibration labs in the nation to offer calibration of fiber optic test instruments.

FIBER OPTIC INSTRUMENTS

Service

What will Essco Calibration Laboratory do for you?

Is fast turnaround important to you?

If your answer is yes, then you are in agreement with over 2000 companies that have chosen Essco to provide the fastest turnaround available.

We have a staff of over 60 people, which include:

- Over 32 calibration technicians serving your needs in our lab or at your facility. Our fully staffed second shift allows us to provide rush overnight service equipment when you need it.
- Customer service representatives serving you Monday through Friday from 7 a.m. to 5 p.m.
- A fleet of telephone-dispatched pickup/delivery vans driven by equipment handling specialists covering New England on a daily basis.

Quality

Essco is accredited to ISO/IEC 17025:2005 by the International Association for Laboratory Accreditation. Accreditation goes beyond ISO 9001 certification: it means working to the highest quality standards and demonstrating competency through proficiency testing and demonstrating competency through proficiency testing by ISO 9001:2000 by Bureau Veritas. We have maintained this quality system since 1995 and have successfully integrated it with the requirements of ISO/IEC 17025:2005.
